

This week's Winlock Special Spotlight falls on our Suregrip window handle for the elderly and arthritic.

Like all Winlock Specials this is a UK manufactured product, exclusive to Winlock, that is made to the highest quality standards and is available ex-stock for standard colours or on a maximum 4 week lead time for other versions.

This product is designed to make operation of a window handle as comfortable and easy as possible for those lacking strength or movement in their hands or fingers. It has a specially extended handle making it easier to turn, and a much larger than normal key for the same reason. The locking mechanism is turn to lock/unlock so there is no requirement to push or squeeze the locking mechanism.

Nonlocking versions for fire escape applications are available.

Spindle lengths can be selected at the time of order and anything from 9mm to 55mm can be supplied.

For prices contact our sales team on 01952 602250 and for full product specifications go to the window products section of our website or click on the following link.
